**Press Release  
For Immediate Release**

## **Dr. Larry Weiner Joins Immunic Therapeutics' Scientific Advisory Board**

**Gaithersburg, MD, November 7, 2008** – Dr. Bill Hearl, President and CEO of Immunic Therapeutics, Inc., Gaithersburg, Maryland, announced today Dr. Larry Weiner will be joining the Company's Scientific Advisory Board as its Allergy Therapeutic Expert. Dr. Weiner is a practicing allergist and is recognized as one of the top specialists in the field in his home state of South Carolina. He is on faculty of the University of South Carolina School of Medicine. Dr. Weiner has been active in allergy and asthma research and brings a unique perspective to ITI's emerging clinical program in immunotherapeutics for allergy applications. The Company anticipates that Dr. Weiner will be active in working with Management to develop a sound clinical plan to support the Japanese Red Cedar LAMP-vax and Short Ragweed LAMP-vax vaccines in 2009.

### **About Immunic Therapeutics**

Immunic Therapeutics, Inc. ("ITI") is a privately held biotechnology company headquartered in Gaithersburg, Maryland that is commercializing DNA vaccines that are important to human health. ITI's vaccines utilize its proprietary LAMP Technology and have been shown to enhance the immune response in human clinical studies. LAMP vaccines are currently in or preparing for clinical studies for cancer (AML and prostate cancer), therapeutic HIV, allergy and influenza. More information about ITI and LAMP technology can be obtained from [www.immunomix.com](http://www.immunomix.com).

*This press release may contain forward looking statements regarding, among other matters, the Company's future prospects. Forward looking statements address matters that are subject to a number of risks and uncertainties that can cause actual results to differ materially. Investors are cautioned that such forward-looking statements in this press release regarding potential applications of ITI's technologies, constitute forward-looking statements that involve risks and uncertainties, including, without limitation, risks inherent in the development and commercialization of potential products, uncertainty of clinical trial results or regulatory approvals or clearances, need for future capital, dependence upon collaborators and maintenance of our intellectual property rights. Future results of the Company will depend on a variety of factors, including the timing of significant orders, the ability of the Company to timely manufacture and deliver ordered products, the ability of the Company to bring new systems to market, the timing of new product releases by the Company's competitors and other competitive factors.*
